

- a) Meeting time change – discussed different time and day options. Decided to keep it as is.

3) Manager Report –

- a) I have started treatments in some areas. The weather has been a factor in mosquito larval counts as well being able to do the treatments. Iverson can have low water levels one week and the next be totally flooded. County is keeping the beaver dam clear, but the tide gate seems to be an issue. Have done some preliminary work on Barnum preserve.
- b) A lot of biting gnats out currently. Also seeing a few mosquitoes but not as many as I expected. I'm sure this will change as the weather warms.
- c) Discussion about different areas and how they look.
- d) Theresa asked if Jay thought he is going to need any help this summer. Jay could always use help in the summer but it's hard to find summer help. There are age requirements and most young people would rather have a full-time summer job rather than part time. We would also need to add it to the budget. Jay would like to find a person interested in mosquito control and have someone who could work part time but year-round. Also, we would need a bigger office etc., mosquito equipment is stored in my personal storage buildings. With the drone being used and the new power wagon to help we discussed that this year should be an evaluation time. Jay; There is so much more that goes along with hiring a person besides the office space concern. A more permanent part time person would be most beneficial. Boyd volunteered the board members to help if needed from time to time.

4) Financial report – Balance March 31, 2018 = \$46,058.62
